

PRESS RELEASE

Blagnac, 24 November 2016

Asset Reference Efficiency

WEARE Aerospace will be at
Aeromart Toulouse 2016
29 November to 1^{er} December

The 11th edition after a 20-year history!

The global aviation community is expected at **Aeromart Toulouse 2016**, *the international Business Convention for the Aerospace Industry*.

WEARE Aerospace, a major player in the aeronautical industry, will naturally be there*.

[* HALL 5 / STANDS E5 - E6 - E8 - E10 - E12]

Pioneer spirit & family inheritance

Resulting from the consolidation of small family businesses, the **WEARE Aerospace** has based its development on customer service, an appetite for technological challenges and a passion for aerospace.

WEARE Aerospace has built its industrial project on values of excellence, innovation, commitment and performance, as well as social values and respect.

WEARE Aerospace carries the collective ambition represented by the commitment of its entire workforce. This shared commitment is the best guarantee of sustainable performance.

A unique industrial group

A fully-integrated and multi-specialist group, in France and around the world.

WEARE Aerospace deploys an ambitious industrial strategy, resolutely based on the specializations of its different industrial sites and international development, on the strength of its innovation and vertical integration.

WEARE Aerospace aims to offer its customers a global solution including turning, milling, additive manufacturing, fine sheet metal, welding, non-destructive testing, surface treatment and painting, equipment and assembly and speedshop.

A new vision

WEARE Aerospace embodies an entirely new corporate vision that focuses on customer satisfaction and the consolidation of the sector.

This unique group is designing a company with a difference, integrating innovation, technology and vertical integration and propose to its customers and employees a vision based on requirement, agility and commitment.
